

CISCO CHAMPIONS LEAGUE

March 2 – April 10

We are super excited to launch the **Cisco Champions League (CCL)** for 2026!

This year, we're raising the bar with not one, but two distinct competition formats designed to test both strategic thinking and hands-on problem solving. Participants can choose to compete in:

1. Cisco Forecast League (CFL) – A Forecasting Challenge that puts your data science, analytical thinking, and business acumen to the test. Additionally, it provides a chance to engage with real-world data.

2. Cisco NewGen Systems League (CNSL) – A Technical Business Case that allows you to showcase real-world problem-solving skills using your software or hardware expertise.

Together, these formats offer participants the opportunity to apply technical knowledge to realistic business scenarios and demonstrate end-to-end thinking.

What's in it for you:

- Learn about analytical, data science and engineering roles in supply chain
- Gain practical experience in forecasting and planning
- Stand out and get recognized
- Expand your professional connections
- All CCL participants will receive a participation certificate
- Snag fantastic prizes and exclusive Cisco interview chances!

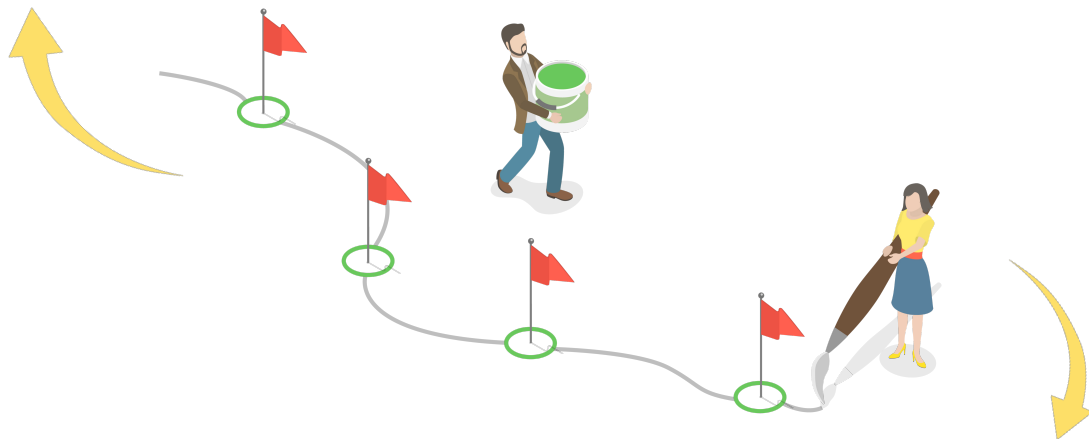

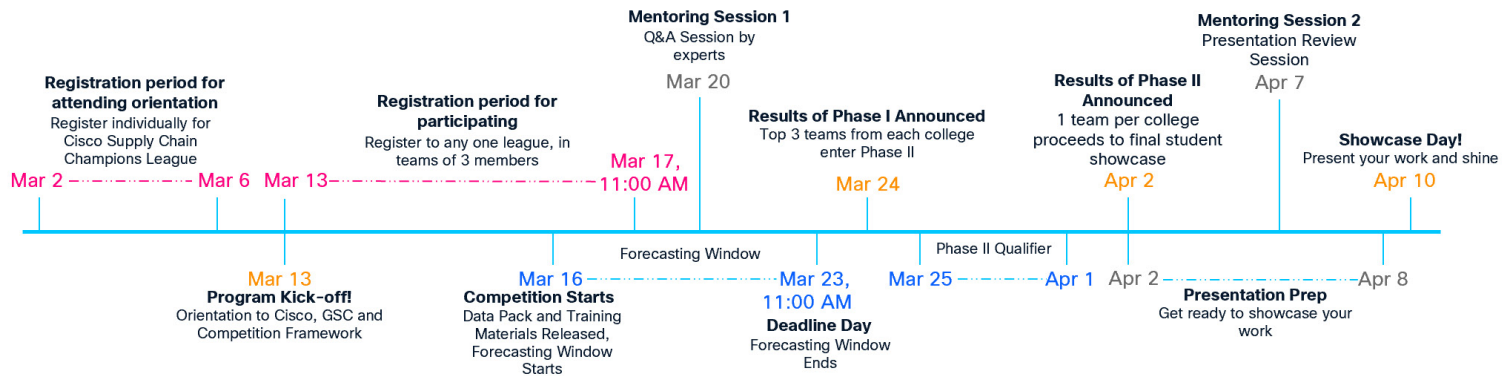

Eligibility:

- You're a third year B.E/B. Tech student
- You're interested in learning about supply chain
- You are passionate about business, data analytics, AI/ML, or core hardware/software engineering skills
- You possess strong communication skills
- You can form a team comprising of three participants from your college.

For more details about CCL, join us at Orientation Day!

Program Timeline:

Timelines – CFL India

Timelines – CNSL India

FAQ:

Q: Is the competition held virtually or in-person?

A: Orientation will be hybrid, allowing students to either attend in person at the Cisco campus or join virtually via broadcast. The final presentation will also have a hybrid format for those who reach the final showcase round.

Q: Can I participate in multiple teams?

A: No, register to be part of only one team.

Q: How do I reach out in case of any issue?

A: There will be open hours set up to resolve your queries and details will be shared after orientation.
